PMP, Professional Scrum Master (PSM I), Certified Scrum Master (CSM)

## Professional Summary

Strategic Senior Project Management with 10+ years leading enterprise-wide transformation programs across IT infrastructure, software, and security domains. Expert at translating business strategy into actionable project portfolios, mentoring high-performing teams, and delivering multi-million-dollar initiatives with measurable ROI. Skilled in aligning cross-functional initiatives with organizational priorities and communicating effectively with executive leadership.

## Core Competencies

- Enterprise Program and Portfolio Management
- PMO Leadership and Governance
- Agile, Waterfall and Hybrid Methodologies
- Risk Management and Mitigation
- Financial Forecasting and Budget Optimization
- Stakeholder Engagement and Executive Reporting
- Cross-Functional and Global Team Leadership
- Program Governance and Continuous Improvement
- Vendor and Resource Management
- KPI Dashboard Development and Data-Driven Decision-Making

**Tools: Smartsheet, Jira, Asana, MS Project Online**

## Professional Experience

### DISH Network - Boost Mobile, CO

*Senior Technical Program Manager* | Oct 2024 – Present

- Led enterprise programs improving network infrastructure reliability and security, overseeing about \$15M portfolio aligned with strategic goals and PMO governance.
- Directed collaboration among global engineering, security, operations, and product teams, enhancing capacity planning and disaster recovery processes; reduced service downtime by 25%.
- Developed governance frameworks and risk mitigation strategies driving executive decision-making; improved program delivery timeliness by 20%.
- Mentored 8 program managers, advancing organizational program maturity and embedding continuous improvement practices.
- Coordinated large-scale infrastructure modernization with multi-regional teams, achieving 30% faster rollout and minimizing service disruption.
- Established KPIs and dashboards to track program health and outcomes, enabling data-backed executive oversight.
- Acted as primary liaison for cross-organizational programs (security rollouts, platform migrations), managing dependencies and resources.
- Led capacity planning and resilience testing to enhance system robustness and reduce MTTR.

### Virgin Atlantic, GA

*Project Manager* | Mar 2021 – Oct 2024

- Directed multi-site digital transformation and infrastructure modernization programs with budgets exceeding \$10M, meeting regulatory and operational standards.
- Directed multi-site infrastructure modernization and digital transformation programs aligned with regulatory compliance and operational objectives.
- Coordinated cross-functional teams (engineering, security, operations) for cloud upgrades, security patches, and performance improvements.
- Managed risk registers, issue workflows, and status reporting to ensure timely, on-budget delivery.
- Executed end-to-end vendor management for hardware/software integrations, ensuring quality and contractual commitments.
- Led post-implementation reviews, metrics analysis, and continuous improvement initiatives based on operational feedback.
- Developed and maintained executive dashboards and presentations communicating program progress and business impact.
- Captured lessons learned and drove ongoing improvements across future initiatives.

- Produced executive dashboards and presentations communicating progress and ROI, aiding strategic decision-making.

### **Cricket Wireless, GA**

*Scrum Master / Project Manager* | Jan 2019 – Mar 2021

- Facilitated Agile ceremonies and sprint cycles for network and platform projects, improving team velocity by 35%.
- Managed backlog, dependencies, and mitigated risks using JIRA and Azure DevOps, supporting aligned delivery of prioritized product features.
- Enhanced team communication and processes, raising delivery predictability and stakeholder satisfaction scores by 20%.
- Coordinated with product owners, engineering, and business stakeholders to clarify priorities and deliverables.
- Acted as a change agent to improve team processes, communication, and delivery predictability.
- Conducted retrospectives and drove continuous improvement through Agile best practices.
- Maintained comprehensive program documentation (user stories, test plans, release notes) and vendor deliverables.

### **Globacom Limited**

*Lead Project Manager / Scrum Master* | Jan 2012 – Oct 2018

- Led complex global telecommunications infrastructure and IT projects (network rollouts, capacity expansions, software deployments).
- Oversaw resource allocation, schedule planning, and risk management to deliver on time and within budget.
- Coached multiple Scrum teams on Agile and Lean practices, elevating velocity and maturity.
- Established program-tracking tools and reporting mechanisms, increasing transparency for senior management.
- Engaged vendors, managed cross-team dependencies, and resolved escalations impacting timelines.
- Developed WBS, risk mitigation plans, and knowledge-base documentation; maintained release/version control.
- Delivered enterprise-wide transformation programs with budgets in the multi-millions, achieving measurable ROI and faster time-to-value.
- Standardized PMO governance and methodologies, reducing cycle times and improving on-time delivery across the portfolio.
- Realized significant cost savings through vendor optimization and resource reallocation.
- Improved system reliability and uptime through infrastructure modernization and resilience initiatives.
- Built and mentored a high-performing team of project managers, elevating PMO maturity and capability.

### **Education**

- Bachelor of Science, Mechanical Engineering – University of Lagos
- National Diploma, Computer Science – Yaba College of Technology

### **Certifications**

- Project Management Professional (PMP)
- Professional Scrum Master (PSM I)
- Certified Scrum Master (CSM)

### **Technical Skills**

- Project Management Tools: Smartsheet, Jira, Asana, MS Project Online
- Program and Portfolio Metrics: KPIs, Dashboards, ROI Analysis
- Agile and Lean Methodologies
