SUPPLY CHAIN DIRECTOR

Enterprise Supply Architecture | \$1B Revenue Platform | \$250M Working Capital Governance | Global Supplier Strategy | SIOP & ERP Transformation Leader

Strategic supply chain executive with 20+ years of leadership experience across aerospace manufacturing and capital-intensive operational environments. Accountable for \$1B revenue enablement and \$250M+ inventory governance, ensuring production continuity, working capital discipline, and global supplier resilience.

PROFESSIONAL EXPERIENCE

Supply Chain Director

StandardAero – Georgia | 2023–Present

- Lead enterprise supply chain architecture supporting \$1B revenue aviation engine MRO platform across multi-program operations.
- Govern \$250M+ inventory portfolio with accountability for working capital optimization, capital exposure mitigation, and service continuity.
- Direct 18 cross-functional professionals across procurement, planning, materials management, compliance, and logistics.
- Present supply performance, inventory risk exposure, and financial impact analysis to CFO and COO.
- Lead formal Sales, Inventory & Operations Planning (SIOP) process aligning demand signals, material positioning, and production capacity.
- Implemented inventory governance strategy driving \$13.1M improvement in trade working capital.
- Reduced WIP material variance by >50% (-\$8.3M), strengthening balance sheet accuracy and operational control.
- Delivered \$750K+ recurring annual cost reductions through sourcing optimization and process redesign.
- Manage global supplier ecosystem across the United States, Canada, Mexico, Czech Republic, and broader European markets.
- Strengthened ERP-enabled analytics and executive dashboards to enhance KPI visibility and continuity planning.
- Sustained 95%+ on-time delivery within high-reliability aerospace production environment.

Lead Senior Materials Specialist

StandardAero – Georgia | 2022–2023

- Directed enterprise materials operations including inventory governance, logistics oversight, regulatory compliance, and production-critical material flow.
- Managed operational throughput supporting engine build schedules and customer commitments.

- Monitored material performance metrics and strengthened execution cadence across teams.

Program Manager / Continuous Improvement Coordinator

StandardAero – Florida | 2019–2022

- Led cross-functional continuous improvement initiatives delivering \$500K+ annual value capture above plan.
- Managed multi-team project portfolios with budget and schedule discipline, driving \$1.2M revenue growth above forecast.
- Strengthened alignment between operations, engineering, and finance through structured performance governance.

Asset Controller

Rolls-Royce Corporation – Texas | 2017–2019

- Directed engine and module lifecycle scheduling, asset utilization governance, and delivery performance control.
- Maintained 100% lifecycle data accuracy supporting customer commitments and production stability.
