- Researched and developed deployment opportunities for Artificial Intelligence software programs.
- Consolidated multiple similar software programs into company-wide standard offerings.
- Worked with end-users to right-size software enterprise and individual license agreements.
- Managed BPA and strategic alliances to create company growth and overall business success.

SENIOR SUPPLY CHAIN MANAGER | 06/24-05/25

CACI International - Chantilly, VA

- Created and initiated 75% of the supply chain processes for \$1B+ program requirements.
- Responsible for product tracking on all system hardware components and software through lifecycle and product End of Life monitoring.
- Applied lean manufacturing principles to improve manufacturing processes and build mitigation/crisis plans to minimize risk.
- Created and maintained a custodial tracking system for \$10M+ Government Furnished Equipment and Customer Acquired Property.

LEAD PROGRAM MANAGER | 03/24-06/24**L3harris Technologies - State College, PA**

- Lead a cross-functional team of 30 individual contributors to meet and exceed customer expectations and create business opportunities in the Defense and Commercial environment.
- Worked towards creating a future factory and factory innovations from out-of-date production facilities.
- Managed secure government programs with mission critical capabilities for products domestically and internationally.
- Developed strategic relationships with government customers and formed frameworks for new product introduction development.

OPS PROGRAM MANAGER | 09/22-02/24**Mercury Systems Inc - Chantilly, VA**

- Identified areas of improvement in existing processes, procedures and systems related to the program delivery cycle.
- Analyzed and tracked unit quality issues that decreased failure rates by 20% within one business quarter.
- Managed and provided priority customers daily status on micro-components and production flow throughout build of purchased products to final delivery.
- Contributed to corporate strategy initiatives management across teams through accountability, communication and reporting.
- Developed strategies and created life cycle plans for new product introduction to the signal technology industry.
- Company leader of Root Cause and Correction Action to identify and improve potential crisis and risk situations that would affect production.

PROGRAM MANAGER | 11/20-09/22**Huntington Ingalls Industries - Leesburg, VA**

- Developed national supply chain procedures for vetting potential suppliers and sources via cloud infrastructure.
- Identified supply chain risks and alternatives for the Department of Energy and other DoD customers.
- Worked with the Defense Counter-Intelligence Security Agency to create a cloud-based infrastructure to identify foreign supply chain risks.
- Managed a team of 10 subcontractors working collaboratively to meet multiple program objectives.
- Established relationships with customers and clients to identify business needs and requirements.
- Increased performance of multiple projects each year from concept through final delivery while doubling growth from \$12M to \$24M in a single year.
- Monitored progress of programs, by using and applying programming documents, program directives, funding documents and other program material.

SUPPLIER PROGRAM MANAGER | 12/15-11/20**The Boeing Company - Fairfax, VA**

- Worked with internal and external resources to develop and employ existing tools, processes and methods to enhance supplier performance in areas of technical, cost, schedule, management and quality.
- Tested products with defense customers on live missions to resolve and troubleshoot real-time issues.
- Increased program product output by 4 times the previous year while providing a superior product to the customer.
- Identified affordability initiatives and obtained customer and program approvals for multi-year contracts.
- Lead Division supplier development as the Supply Base Manager and Supplier Diversity Manager.
- Point of contact as a vital partner of Purchasing groups and Program Managers regarding Supply Chain related issues.

SUPPLY CHAIN MANAGEMENT ANALYST | 07/10-12/15

The Boeing Company - Charleston, SC

- Experience and support in composite fabrication, which includes managing composite raw material development throughout product life cycle and managing material flow with suppliers.
- Studied movement of goods to identify gaps in efficiency and other areas needing improvement.
- Identified, selected and maintained logistic suppliers and achieved optimum costs and service qualities.
- Increased supply chain productivity by applying lean methodologies while reducing 25% of physical inventory.

PROCUREMENT AGENT | 09/08-07/10

The Boeing Company - Long Beach, CA

- Negotiated and contracted products, services, and technologies for multiple varieties of commodities.
- Engaged stakeholders to ensure that program, customer, product, and in-service strategies were integrated into source selection, negotiation and contracting strategies.
- Managed supplier/subcontractor performance and relationship to ensure delivery, quality, financial stability, and in-service performance increased expectations.
